Blood Pressure
mechanism of blood flow in veins of abdomen and lower extremities, 34
Blood Pressure, High
sympathectomy: effect on cerebral circulation of hypertensive patients, 319
sympathectomy for hypertension: 52 patients followed 1 to 3 years postoperatively, 319
Blood Vessels: See also Arteries; Veins
diseases: lumbar sympathectomy in peripheral vascular disease, 884
bones: See also under names of bones
diseases: See Osteomyelitis
fractures: See Fractures
transplantation: treatment of fractures with long-standing osteomyelitis: results of use of tubial sliding graft, 379
Brain: See also Cranium
effects of sympathectomy on cerebral circulation of hypertensive patients, 319
ruptures of surface blood vessels on cerebral hemispheres as cause of subdural hemmorhage, 992
Bramson, L. E.
Intracranial aneurysms, 294
Breast
cancer: surgical management of advanced, 915
carcinoma, testosterone treatment of far advanced, 639
surgery: excision of skin in radical mastectomy, 305
surgery: techinc for radical mastectomy, 312
sweat gland lesions of: surgical significance, 619
Breck, L. W.
New simplified technic for localization of foreign body, 588
Breidler, H.
Prostatic cancer: further investigation of hormonal relationships, 483
Brines, O. A.
Mesenchymal tumors of stomach, 1019
Brintnall, E. S.
En masse “pelvic vesiectomy” with uretero-intestinal anastomosis, 651
Brooks, F.
Sludged blood following severe thermal burns, 387
Brown, J. B.
Elongation and digitization of first metacarpal for restoration of function of hand, 17

ulcerative: removal of large bowel in one stage in selected cases, 534
Collins, D. C.
Pseudocysts of pancreas: total excision: report of case, 524
Colon: See also Gastrointestinal Tract;
tissues, action of various pharmacologic and other agents, 1659
evaluation of colostomy in injury of, 1658
surgical decompression for malignant obstruction: technique, 151
Colostomy
evaluation for present day surgery: review of 4,939 cases of injury of colon and rectum, 1058
Condon, W. B.
Middle lobe syndrome, 696
Conley, J. E.
Sympathectomy for hypertension: experience with 52 patients followed one to three years postoperatively, 810
Corn Sugar: See Dextrose

Calories
In parenteral nutrition in surgery: significance in maintaining positive nitrogen balance, 977
Camp, E. H.
Question of return of gastric secretion after complete vagotomy, 175
Cancer: See Sarcoma; Tumors; and under names of organs and regions, as Breast; Prostate
Cannon, B.
Elongation and digitization of first metacarpal for restoration of function of hand, 17
Carcinoma: See Cancer; and under names of organs and regions
Cardiovascular System
abnormalities: See also Heart, abnormalities:
abnormalities: anesthetic problems in children undergoing operations, 259
abnormalities: functional pathology of certain malformations which may be treated surgically, 1103
abnormalities: surgical problems, 244
Cassel, M. A.
Treatment of post-thrombotic syndrome by interruption of supravalvar femoral vein, 546
