Implications of Malnutrition in the Surgical Patient
James L. Mullen, MD; Marc H. Gartner, MD; Gordon P. Buzby, MD; Glenn L. Goodhart, MD; Ernest F. Rosato, MD, Philadelphia
Altered serum albumin, transferrin and delayed hypersensitivity predicted postoperative problems.

Identification of Heparin Resistance During Cardiac and Vascular Surgery
Charles D. Sabry, MD; Raymond C. Read, MD; Bernard W. Thompson, MD; G. Doyne Williams, MD; Harold J. White, MD, Little Rock, Ark.
Use of the activated clotting time indicated variations in amount of heparin needed for anticoagulation.
Editorial comment by Edwin W. Salzman, MD, Boston

Dacarbazine and Melphalan: Enhancement by Dosage Scheduling of the Effect in Combination
Helene Z. Hill, PhD; George J. Hill II, MD; John Szramowski, Huntington, WV

Wound Dehiscence: Pathophysiology and Prevention
A. Gerson Greenburg, MD, PhD; Richard P. Saik, MD; Gerald W. Peskin, MD, San Diego
Method of closure and direction of incision had little influence on the problem.

Percutaneous Decompression of Benign and Malignant Biliary Obstruction
Thomas W. Pollock, MD; Ernest R. Ring, MD; Juan A. Oleaga, MD; David B. Freiman, MD; James L. Mullen, MD; Ernest F. Rosato, MD, Philadelphia
Internal drainage established by advancing the catheter past the site of obstruction.

Bacteriologic and Systemic Effects of Intraoperative Segmental Bowel Preparation With Povidone Iodine
Abelardo Arango, MD; J. Lancelot Lester III, MD; Octavio V. Martinez, PhD; Theodore I. Malinin, MD; Robert Zeppa, MD, Miami
An effective method of reducing colon bacteria.

Periorbital Ultrasound Findings: Hemodynamics in Patients With Cerebral Vascular Disease
Jonathan B. Towne, MD; Sergio Salles-Cunha, MSc; Victor M. Bernhard, MD, Milwaukee
Valuable in assessing the adequacy of collateral cerebral circulation.

Determination of Intestinal Viability by Doppler Ultrasound
Robert W. Hobson II, MD, East Orange, NJ; Creighton B. Wright, MD, Iowa City; Joseph A. O'Connell, MD; Zafar Jamil, MD, East Orange, NJ; Wade C. Lambeth, MD, Iowa City; Zia Najem, MD, East Orange, NJ
A helpful adjunct during abdominal aortic operations to evaluate adequacy of blood flow to the left colon.

Diagnosis and Surgical Treatment of Colonic Endometriosis
William C. Meyers, MD; Frederick M. Kelvin, MD; R. Scott Jones, MD, Durham, NC
Resection of involved bowel recommended since endocrine therapy alone may not relieve symptoms.

Liver Resection for Hepatic Adenoma
Richard Weil III, MD; Lawrence J. Koep, MD; Thomas E. Starzl, MD, Denver
Formal anatomic resection for benign hepatic adenoma is recommended.

Transduodenal Sphincteroplasty
J. S. Vassiliakos, MD; K. Manolas, MD; J. Boudouris, MD, Athens, Greece
Sphincteroplasty of the sphincter of Oddi for benign stenosis provides excellent results.
Editorial comment by Mark Hayes, MD, New Haven, Conn

Gastroduodenal Disease in Chronic Spinal Cord Injuries: An Endoscopic Study
Masao Tanaka, MD; Motoaki Uchiyama, MD; Motoo Kitano, MD, Kitakyushu, Japan
A high incidence of gastroduodenal erosive lesions was found in patients with chronic spinal cord injuries.

The Archives of Surgery (ISSN 0004-0010) is published monthly by the American Medical Association, 533 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

Change of Address: Postmaster, send address changes to Helen R. Mazur, Director, Circulation-Fulfillment. Notification of address change should be sent at least six weeks in advance, including both old and new address and a mailing label taken from the most recent copy. Include your new zip code number.

Subscription Rates: The rates for the Archives of Surgery are as follows: for members of the AMA, $1.50, included in the annual membership dues; for nonmembers, $24.00 for one year, $48.00 for two years in the United States and US possessions; all other countries, $34.00 for one year, $60.00 for two years. Special yearly price to residents, interns, and medical students in the United States and US possessions, one year, $12.00; two years, $20.00. Address all subscription communications to Circulation-Fulfillment Department.

Advertising Offices: 533 N Dearborn St, Chicago, IL 60610, Area Code 312, 751-6675; and 600 Third Ave, New York, NY 10016, Area Code 212, 867-8640.

Advertising Principles: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.
CONTENTS—Continued

Risk Assessment of Pulmonary Embolism by Multivariate Analysis ........................................... 188
Bernard Sigel, MD; Jeffrey R. Justin; Robert J. Gibson, MS; W. Robert Felix, Jr, MD;
George L. Popky, MD; Janet A. Parker, MD; Johannes Iopens, MD, Philadelphia
Factors associated with increased risk for pulmonary embolism were identified.
Editorial comment by Gardner W. Smith, MD, Baltimore

CLINICAL NOTES

Late Appearance of Intra-abdominal Abscesses After Total Colectomy for Inflammatory Bowel Disease .................................................. 195
Richard E. Burney, MD; Birgit Gudjonsson, MD; C. Elton Cahow, MD; Howard M. Spiro, MD, New Haven, Conn
Large, relatively asymptomatic abscesses developed up to five years after operation.

Presplenectomy Transcatheter Occlusion of the Splenic Artery ..................................................... 198
Jonathan M. Levy, MD; Paul Wasserman, MD; Nicholas Pitha, MD, Scottsdale, Ariz
This procedure decreases splenic bulk and may decrease intraoperative bleeding.

Preoperative Chemotherapy for Initially Unresectable Hepatoblastoma in Children: Survival in Two Cases ......................................... 203
Keliichi Ikeda, MD; Sachyio Suta, MD; Akira Nakagawa, MD, Fukuoka, Japan; Kazuki Takabayashi, MD, Beppu, Japan
Tumors presumed to be unresectable decreased in size with chemotherapy and were then resected.

Pneumoperitoneum and Pneumomediastinum: Consequences of Positive End-Expiratory Pressure Therapy .......... 208
Adele R. Altman, MD, Thomas H. Johnson, MD, Oklahoma City
Pulmonary interstitial gas and pneumomediastinum precede the pneumoperitoneum.

BRIEF CLINICAL NOTES

Meckel’s Diverticulum of the Proximal Jejunum ........................................................................ 212
George R. McDowain, MD, Marion C. Anderson, MD, Charleston, SC
A diverticulum meeting the criteria for an omphalomesenteric remnant was found just beyond the Treitz ligament.

Cholangitis With a Silver Lining ...................................................................................................... 214
William E. Walker, MD, PhD; George R. Avant, MD; Vernon H. Reynolds, MD, Nashville, Tenn
Common duct stone formed around a silver clip.

EXPERIMENTAL SURGERY

Portalization of Venous Blood of Kidneys and Adrenal Glands: Effect in Experimental Vasorenal Hypertension ........... 216
A. S. Kogan, MD, DSci; A. M. Gontchar, MD, PhD; P. V. Matveev; M. I. Protosenko; O. N. Tays, MD, PhD, Novosibirsk, USSR
Portacaval transposition lowers blood pressure in renovascular hypertension.
Editorial comment by Samuel R. Powers, Jr, MD, Albany, NY

The Biology of Human Malignant Melanoma: Preliminary Findings In the Nude Mouse ............................................................. 221
Louis H. Barr, MD; Roberta L. Gartsid; Leonard I. Goldman, MD, Philadelphia
Behavioral differences in human melanoma detected by implanted xenografts.
Editorial comment by Jerome J. DeCosse, MD, New York
