EDITORIAL

Good Surgery Is Good Economy .................................................. 1001
Francis D. Moore, MD, Boston

ORIGINAL ARTICLES

Systemic Prophylactic Antibiotics in Elective Biliary Surgery ................ 1002
Zvi Kaufman, MD; Moshe Engelberg, MD; Avinoam Eliashev, MD; Raphael Reiss, MD, Kfar-Saba, Israel
Antibiotics were helpful only in patients with diabetes, common duct exploration, appendectomy, or positive bile cultures.
Editorial comment by Robert E. Condon, MD, Milwaukee

Acceleration of Wound Healing by a Live Yeast Cell Derivative .......... 1005
Jerold Z. Kaplan, MD, Berkeley, Calif
Earlier angiogenesis and epithelialization occurred in donor sites of patients with burns treated with the yeast cell derivative.
Editorial comment by Thomas K. Hunt, MD, San Francisco

Determinants of Survival After Vena Caval Injury:
Analysis of a 14-Year Experience .............................................. 1009
Kenneth A. Kudsk, MD, Columbus, Ohio; Frederic Bongard, MD, Robert C. Lim, Jr, MD, San Francisco
The highest mortality occurred in patients with avulsion injuries in contrast to those with simple lacerations.

Noninvasive Evaluation of Chronic Venous Insufficiency:
Use of Foot Mercury Strain-Gauge Plethysmography ....................... 1013
Harry Schanzer, MD; Lila Lande; Giuliano Premus; E. Converse Peirce II, MD, New York
Plethysmographic patterns could distinguish incompetence of the saphenous vein, perforators, or deep system, and deep system occlusion.

Comparison of Antacids on the Binding of Bile Salts ...................... 1018
G. Donald Cousar, MD, Thomas R. Gadacz, MD, Baltimore
Antacids which also bind bile salts may help in the treatment of bile gastritis.

Steroid Effect on Capillary Permeability in Gram-negative Septic Shock:
Evaluation by Vitreous Fluorophotometry .................................. 1021
Walter W. Tom, MD; Robert M. Dotterrer, MD; Mario Villaiba, MD, Royal Oak, Mich
Steroids modified capillary permeability changes when given before the development of septic shock.

Hepatic Resection in 125 Patients .............................................. 1025
Toshiharu Tsuzuki, MD; Yoshiro Ogata, MD; Shuhei Iida, MD; Motohide Shimazu, MD, Tokyo
In resections for hepatocellular, metastatic, and hepatic duct bifurcation carcinomas, three-year survival rates ranged from 21% to 56%.

Stenosis Following Carotid Endarterectomy: Its Implication in
Management of Asymptomatic Carotid Stenosis ............................. 1033
Mary Paula Colgan, MB; Violet Kingston, SRN; Gregor Shanik, MD, MCh, FRCS, FRCSI, FACS, Dublin
The role of carotid endarterectomy for asymptomatic carotid stenosis is questioned.
Editorial comment by Jesse E. Thompson, MD, Dallas

THE ARCHIVES OF SURGERY (ISSN 0004-0010) is published monthly by the American Medical Association, 535 N Dearborn St, Chicago, IL 60610, and is an official publication of the Association. Second-class postage paid at Chicago, IL 60610 and at additional mailing office.

SUBSCRIPTION RATES—The subscription rates for the Archives of Surgery are as follows: for members of the AMA, $1.50 included in the annual membership dues; for nonmembers, $30 for one year, $56 for two years in the United States and US possessions; all other countries, one year, $40; two years, $76 (add $10 surcharge to each one-year subscription, $20 for two years for air delivery to the United Kingdom and Europe only). Special yearly rates to residents and medical students in the United States and US possessions, one year, $15; two years, $28. Rates for subscriptions for delivery to Bangladesh, India, Japan, Nepal, South Korea, and Sri Lanka are available through respective exclusive agents. Address all subscription communications to the American Medical Association, Circulation and Fulfillment Division, 535 N Dearborn St, Chicago, IL 60610. Phone: (312) 645-4929.

CHANGE OF ADDRESS—POSTMASTER, send all address changes to Caryl L. Wertheimer, Director of Fulfillment, 535 N Dearborn St, Chicago, IL 60610. Notification of address change must be made at least six weeks in advance, include both old and new addresses, a recent mailing label, and your new zip code.

ADVERTISING PRINCIPLES: Each advertisement in this issue has been reviewed and complies with the principles governing advertising in AMA scientific publications. A copy of these principles is available on request.
CONTENTS—Continued

Congenital Choledochal Cyst With Intrahepatic Involvement ........................................... 1038
Takui Todani, MD; Yusuhiko Watanabe, MD; Tadashi Fujii, MD;
Akira Toki, MD; Sadashige Uemura, MD; Yoshinobu Koike, MD, Kagawa, Japan
Excision of the extrahepatic bile duct with a large hepatic
duct anastomosis to the jejunum or duodenum is recommended.

Radical Operation for Thyroid Carcinoma Invading the Trachea ......................................... 1046
Kazuyasu Naka, PhD; Masahiko Miyata, PhD; Masaaki Izukura, MD;
Yasumasa Monden, PhD, Osaka, Japan; Masazumi Maeda, PhD, Kagawa, Japan;
Yasunari Kawashima, PhD, Osaka, Japan
Tracheal invasion was diagnosed preoperatively by
endoscopy and computed tomography.

Traumatic Pseudoaneurysms of the Thoracic Aorta: Anatomic and Radiologic Correlations ..... 1055
Steven R. Gundry, MD; Richard E. Burney, MD; James R. Mackenzie, MD;
S. Z. Jafri, MD; Khalil Shirazi, MD; Kyung J. Cho, MD, Ann Arbor, Mich
Although some pseudoaneurysms appear to have remarkable
stability, experience suggests that surgical repair is best.

Hospital Costs of Surgical Complications ............................................................................ 1065
Lockert B. Mason, MD, Alfred G. Garcia, MD, Wilmington, NC
The unfavorable impact of complications on patients, the hospital, and society is described.

SPECIAL ARTICLE

Lymph Node Metastases: Indicators, but Not Governors of Survival ...................................... 1067
Blake Cady, MD, Boston
The role of lymph node metastases is passive, not active,
and helps to identify the biology of the host-tumor interaction.

CLINICAL NOTES

New Computed Tomographic Signs of Aortoenteric Fistula .................................................. 1073
John S. Kukora, MD; Fred W. Rushton, MD; Phillip E. Cranston, MD, Jackson, Miss
Intraluminal aortic gas and paraprostatic extravasation of
contrast medium indicate the presence of a fistula.

Focal Motor Seizures Complicating Carotid Endarterectomy .............................................. 1080
LTC Jerry R. Youkey, MC, USA; G. Patrick Ciggett, MD; CPT Jonathan H. Jaffin, MC, USA;
MAJ Joseph E. Parisi, MC, USA, Washington, DC; Norman M. Rich, MD, Bethesda, Md
Patients in whom severe unilateral headaches develop after carotid endarterectomy
for severe stenosis are at risk for focal motor seizures.

Difficulties in the Diagnosis and Treatment of Pancreas Divisum ........................................ 1088
M. Alex Jacocks, MD; Stephen G. ReMine, MD; Daniel H. Carmichael, MD, Oklahoma City
There were problems with sphincteroplasty of the papilla of
the duct of Santorini in patients with this anomaly.

Carotid Cavernous Fistula Following Fogarty Catheter Thrombectomy .................................. 1095
Job S. Kakkasseri, MD; Thomas A. Tomsick, MD;
James A. Arbaugh, MD; John J. Cranley, MD, Cincinnati
 Percutaneous insertion of a detachable balloon successfully closed the fistula.

Infected Venous Pseudoaneurysm: A Complication of Drug Addiction ................................. 1097
Jeffrey E. Johnson, MD; Charles E. Lucas, MD; Anna M. Ledgerwood, MD; Lloyd A. Jacobs, MD, Detroit
Treatment is by complete excision of the involved vein with the wound left open, with packing.

REGULAR DEPARTMENTS

Correspondence and Brief Communications ........................................................................... 1099
The Use of Thall's Fundoplication Keith W. Ashcraft, MD, Kansas City, Mo.................... Cecal Bescule Mumtaz Chinoy, MD, Cesar V.
